## A step ahead in letting the world have smoother and painless steps

“In our country, there are various foot and ankle problems. Complex trauma, neglected congenital deformities, neglected trauma, infections, sports injuries and other cold foot and ankle issues are very prevalent in every section of the society, and need to be treated with perfection.

In the last decade, Foot and ankle subspecialty has emerged in India. And Parekh Family Foundation has taken a leading role in educating orthopaedic surgeons with the latest developments in foot and ankle disorders.

The 10th Parekh Indo US Foot and Ankle course is being organized in Pune on 4th, 5th and 6th January 2019 by Sahyadri Hospitals, Pune under the aegis of Pune Orthopaedic Society. This course includes live surgical demonstrations, case discussion and panel discussions on common issues in this subspecialty.

So, together, let's welcome the year 2019 with updated academics and pledge to stay committed to patient care. We are eagerly waiting to welcome you to this conference.”

### ► International Chair

MD, MBA, FAOA,  
Prof. Dept. of Surgery,  
Duke University, USA,

### ► National Chair

**Dr. Rajiv Shah**  
MBBS, MS  
Consultant Orthopaedic,  
Foot & Ankle Surgeon  
MD-Sunshine Global  
Hospitals, Vadodara

### ► Organising Secretary

**Dr. Sachin Karkamkar**  
Orthopaedic & Joint  
Replacement Surgeon,  
Sahyadri Super speciality  
Hospital Hadapsar, Pune

### ► Organising Committee

**Dr. N J Karne**  
**Dr. Prasanna Nande**  
**Dr. Gautam Salunkhe**  
**Dr. Sachin Jadhav**  
**Dr. Rahul Zanzurne**  
**Dr. Amol Tapadia**  
**Dr. Sachin Abne**  
**Dr. Shailesh Patil**  
**Dr. Milind Gajewar**

## Highlights of the Conference: Various aspects of Foot and Ankle

Basic  
science

Clinical  
examination

Lectures &  
presentations

Management  
of Complex cases  
Arthroscopic  
procedures

Panel  
discussions

Saw bone  
Workshop  
Poster  
presentation

### Live Surgeries

(Depending  
on time availability)

- Calcaneum fracture fixation
- Triple fusion
- Ankle arthroscopy
- Ankle fusion
- Hallux valgus correction
- Flat foot reconstruction
- Total ankle replacement
- Achilles' tendon surgery
- Lisfranc fixation/fusion
- Deformity correction
- Calcaneus malunion reconstruction

### Physiotherapy workshop on Saturday 5th Jan 2019

Physiotherapy workshop

- Clinical examinations
- Lectures and presentations
- Discussions
- Poster presentation

## International Faculty

### ▶ USA

**Dr. Samuel B. Adams**

Assistant Professor of  
Orthopaedics & Ankle Research  
Duke University Medical Center

### • Parekh Family Resident Scholars

Dr. Daniel Scott  
Dr. Bonnie Chien

### • Physical Therapists

Zankhna S. Parekh  
Therapod Rehab  
Physical Therapist  
Chapel Hill, NC, USA

### ▶ Singapore

**Dr. Muhammad Farhan Mohd. Fadil**

Consultant, Dept. of  
Orthopaedics.  
Tan Tock Seng Hospital,  
Singapore

### ▶ TURKEY

**Dr. Kaan Irgit**

Associate Professor  
At Marma University School of  
Medicine, Istanbul

### ▶ BELGIUM

**Dr. Bernhard Devos Bevernage**  
Orthopaedic Surgery, Foot and  
Ankle Surgery, Sport Injuries  
of the Ankle/Foot, Diabetic  
Foot Clinic, Brussels, Belgium

## National Faculty

### About the Parekh Family Foundation

The Parekh Family Foundation was started in the honour of Guntant and Bharati Parekh, who were great believers in education, hard work, and discipline. Dr. Parekh and his family have contributed immensely towards orthopaedic healthcare in India. Presenting and sponsoring the annual Indo-US Foot and Ankle Surgery Conference has been a part of that contribution. The aim of this conference is to disseminate and share techniques in foot and ankle surgery with surgeons from India, South Asia, and the United States. Faculty from both the US and India participate in teaching during the workshops and the didactic sessions that provide attendees and registrants with a unique perspective on foot and ankle pathologies.

### About Sahyadri Hospitals

Sahyadri Hospitals, one of the largest chains of hospitals in India is a name synonymous with innovation, excellence and trust. With a robust network of 8 hospitals, 900 beds, 2000 clinicians and 2600 supporting staff, Sahyadri Hospitals has touched the lives of over 50 lakh patients.

Owing to the successful track-record of over 25 years, Sahyadri Hospitals is one of the most trusted hubs of quaternary care in India. With its extraordinary critical care infrastructure, utter precision in diagnosis, round-the-clock availability of consultants, trained critical care experts and a strong backing of tertiary healthcare services, it has emerged as a leading global referral center for many critical specialities and super-specialities.

Such is the group's presence in Pune, that no matter where you are, a Sahyadri Hospital is just 15 minutes away from you. Apart from Pune, the group today has expanded its footprints in Karad, and Nashik in Maharashtra, which is testimony of group's philosophy to make healthcare easily accessible.
